About This Project

The Hollywood North Beach Construction Project consists of the overhead to underground utilities conversion project, watermain and sewer improvements, and lighting upgrades. The project will extend from Balboa Street to Franklin Street, between A1A and Surf Road (residential area), and Douglas Street to Freedom Street between A1A and Surf Road (condo area).

How Long Will It Take

The project is scheduled to begin by Summer of 2024 with completion scheduled for Winter of 2026, although there will be minor preconstruction activities prior to this duration.

We Are Here For You

Project updates will take place at scheduled civic association and public meetings.

What To Expect

Progression of Construction will be as follows:

- Construction will begin to the north on Balboa Street and progress south to Franklin Street.
- Underground utilities on each street will be completed and roadway temporarily restored prior to beginning subsequent streets.
- For each street, the goal is to close small sections at a time progressing from west to east to facilitate minimal impacts to residences and businesses.
- Minimal impacts may include: driveway closures; construction noise; minor vibrations; construction equipment and detours.
- Construction schedules, temporary parking arrangements, and other project information will be available on the project website or by calling the project hotline, both listed below. Additional details will be provided via e-mail, mail, fliers, project website or through the City's website.
- Accommodations will be made for all mail, trash and emergency services.

North Residential Area

The project boundaries are North Ocean Drive (A1A) and Surf Road, from Balboa Street to Franklin Street. Construction will include:

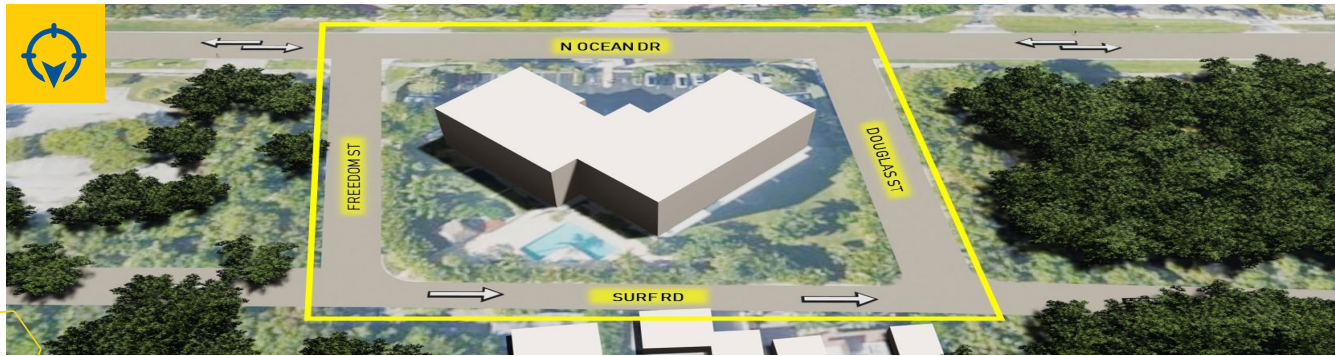

- Undergrounding of FPL, AT&T Comcast overhead lines, and street lighting upgrades. Streets will be repaved upon completion of all underground utilities.
- Installation of new watermain throughout the north residential area and sewer main on Balboa.

South Condo Area

The project boundaries are North Ocean Drive (A1A) and Surf Road, from Douglas Street to Freedom Street. Construction will include:

- Undergrounding of FPL, AT&T and Comcast overhead lines, and street lighting upgrades.
- Streets will be repaved upon completion of all underground utilities.

Maintenance of Traffic (MOT)

- The community will be notified of street closures, detour routes, driveway closures, etc. and access to private property will always be maintained.
- We will coordinate with local emergency services agencies and city staff to ensure that services are not impacted.
- We will manage right-of-way elements including but not limited to mailboxes, irrigation, non-standard driveway aprons and vegetation.
- We will provide temporary parking.

Project Updates

- The City of Hollywood and Whiting-Turner will provide periodic project updates at all Public Meetings.
- Details regarding future public meetings will be updated on both the Project webpage, as well as the City's website, www.hollywoodfl.org.

Important Information

- We are requesting that all homeowners and businesses register for our distribution list so we can provide regular project updates. Please register at the project website: www.northbeachundergroundingproject.com
- You may also call the project hotline number to provide registration details: **561.382.2766**
